ANÁLISIS DE IMÁGENES

PARA CIENCIAS DE LA VIDA

FILTRADO ESPACIAL

Juan Cardelino juanc@fing.edu.uy Departamento de Ingeniería Biológica http://paap.cup.edu.uy

Contenido

- Motivación
 - * Aplicaciones
- Procesamiento de imágenes
 - * Introducción
 - * Intensidad
 - * Filtrado
 - Segmentación

FILTRADO

INTRODUCCIÓN

- Organización espacial
- Ruido

APLICACIONES

- Agregar ruido
- Reducir ruido
- Resaltar detalles
- Operaciones matemáticas

- * Miramos solamente la magnitud
- No su distribución espacial

Count: 16384 Min: 64 Mean: 127.945 Max: 191

StdDev: 21.049 Mode: 128 (14584)

Count: 16384 Min: 64 Mean: 127.945 Max: 191
